*What are the key risk factors that are specific to the issuer**Refinancing risk*

If KLP Kommunekreditt AS is not able to refinance maturing Covered Bonds by issuing new Covered Bonds the Issuer may not be able to make timely payment on the principal of the maturing Covered Bond. This would occur if investors either do not want to or are not able to invest in Covered Bonds issued by KLP Kommunekreditt AS. Such a situation may arise because the Issuer has an increased credit risk or the Covered Bond market is not functioning satisfactorily. The amortisation of the cover pool assets does not generate sufficient liquidity to repay maturing Covered Bonds. As of 31 March 2021, the weighted average life of the cover pool assets was 11,9 years versus 2,4 years for Covered Bonds issued by KLP Kommunekreditt AS.

The Issuer's liquidity risk policy requires that KLP Kommunekreditt AS has liquidity sufficient to cover all Covered Bonds maturing the next twelve months. To fulfil this requirement The Issuer therefore refinances maturing Covered Bonds twelve months prior to maturity. In the case of an inability to issue Covered Bonds the liquidity risk policy requirement gives the Issuer twelve months to find measures so that the maturing Covered Bonds can be repaid

	<p>when maturing. All Covered Bonds issued by KLP Kommunekreditt AS have a soft-bullet, enabling a one-year extension of the maturity of the Covered Bonds.</p> <p>The Issuer has established a senior unsecured revolving credit facility with KLP Banken AS in order to ensure the Issuer has access to liquidity to meet its payment obligations in respect of all Covered Bonds then outstanding, including any principal, interest and any connected derivative agreements, for the next 12 months on a rolling basis, and for the previous 12 months on a rolling basis, for claims due, but not paid. During the life of the covered bond KLP Banken AS's credit risk can change and the ability to fulfil its obligations can be materially reduced.</p> <p><i>Liquidity and market value of liquidity portfolio (securities)</i> The Issuer is exposed to the risk that the value of a substitute asset may decrease as a result of the trend in market factors, such as interest rates, credit spreads and the volatility of these factors. As of March 31th 2021 the market value of the liquidity portfolio was 919 million kroner with a weighted average life of 3,0 years. 96 % of the securities in the portfolio are Norwegian Covered Bonds. There is a maturity mismatch between the liquidity portfolio and the maturing Covered Bonds. In order to repay maturing Covered Bond the securities need to be sold in the securities market. In the case of the Norwegian Covered Bond market is not functioning satisfactorily there is a risk of not being able to sell the Covered Bonds in a timely manner or that the securities have to be sold with a substantial discount. An increase of 10 basis points would have a negative effect on the value of the liquidity portfolio of 2,7 million kroner.</p> <p><i>Increased interest rate on borrowing versus lending</i> As the Issuer is exposed to different markets with respect to its borrowing and lending activities, there is a risk that interests levels on its borrowings may increase at a time when it is not able to similarly increase the interest levels on its receivables, which may have a negative effect on its ability to fulfil its obligations.</p> <p><i>Operational risk</i> Considering the issuer isolated and its relatively low number of employees, operational risks related to loan management and group services might occur. The organizational structure of the issuer, which carries a dependency between the issuer and the parent company, is exposed to the risks that comes with structural changes.</p>

The Bond Terms governs such Temporary Bonds. The Issuer will inform the Bond Trustee, Exchange and Paying Agent once the prospectus is approved.</p>
<i>What are the key risks that are specific to the securities</i>	
Most material key risks	<p><i>Financial risk</i></p> <p>Market risk is the risk that the value of the Loan will decrease due</p>

	<p>to the change in value of the market risk factors. The price of a single bond issue will fluctuate in accordance with the interest rate and credit markets in general, the market view of the credit risk of that particular bond issue, and the liquidity of this bond issue in the market. In spite of an underlying positive development in the Issuers business activities, the price of a bond may fall independent of this fact. Bond issues with a relatively short tenor and a floating rate coupon rate do however in general carry a lower price risk compared to loans with a longer tenor and/or with a fixed coupon rate.</p> <p>KLP Kommunekreditt AS has as of November 2019 issued NOK 18.7 billion of Covered Bonds and is a small issuer in the Norwegian Covered Bond market. No market-maker agreement is entered into in relation to this bond issue, and the liquidity of bonds will at all times depend on the market participants view of the credit quality of the Issuer as well as established and available credit lines.</p> <p><i>Interest rate risk</i> is the risk borne by the Loan due to variability of the NIBOR interest rate. The coupon payments, which depend on the NIBOR interest rate and the Margin, will vary in accordance with the variability of the NIBOR interest rate. The interest rate risk related to this bond issue will be limited, since the coupon rate will be adjusted quarterly according to the change in the reference interest rate (NIBOR 3 months) over the 4.5 year tenor (extendable up to 5.5 years). The primary price risk for a floating rate bond issue will be related to the market view of the correct trading level for the credit spread related to the bond issue at a certain time during the tenor, compared with the credit margin the bond issue is carrying. A possible increase in the credit spread trading level relative to the coupon defined credit margin may relate to general changes in the market conditions and/or Issuer specific circumstances. However, under normal market circumstances the anticipated tradable credit spread will fall as the duration of the bond issue becomes shorter. In general, the price of bonds will fall when the credit spread in the market increases, and conversely the bond price will increase when the market spread decreases.</p> <p><i>The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"</i> The Listed bonds are linked to NIBOR. Interest rates and indices which are deemed to be "benchmarks", (including NIBOR) are the subject of recent national and international regulatory guidance and proposals for reform including, without limitation, the Benchmark Regulation and certain other international and national reforms. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Bonds linked to or referencing such a "benchmark". The Benchmarks Regulation could have a material impact on any Bonds linked to or referencing a "benchmark", in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the "benchmark".</p>

Rating

According to Moodys rating definitions available at the date of this Prospectus on <https://ratings.moodys.io/ratings#rating-scale>, Moody's long-term ratings are opinions of the relative credit risk of financial obligations with an original maturity of one year or more. They address the possibility that a financial obligation will not be honored as promised. Such ratings use Moody's Global Scale and reflect both the likelihood of default and any financial loss suffered in the event of default.

If the Bond Trustee is not present, the Bondholders' Meeting will be opened by a Bondholder and the Chairperson elected by the Bondholders' Meeting.
- (h) Each Bondholder, the Bond Trustee and, if the Bonds are listed, representatives of the Exchange, or any person or persons acting under a power of attorney for a Bondholder, shall have the right to attend the Bondholders' Meeting (each a "**Representative**"). The Chairperson may grant access to the meeting to other persons not being Representatives, unless the Bondholders' Meeting decides otherwise. In addition, each Representative has the right to be accompanied by an advisor. In case of dispute or doubt with regard to

whether a person is a Representative or entitled to vote, the Chairperson will decide who may attend the Bondholders' Meeting and exercise voting rights.

- (i) Representatives of the Issuer have the right to attend the Bondholders' Meeting. The Bondholders Meeting may resolve to exclude the Issuer's representatives and/or any person holding only Issuer's Bonds (or any representative of such person) from participating in the meeting at certain times, however, the Issuer's representative and any such other person shall have the right to be present during the voting.
- (j) Minutes of the Bondholders' Meeting must be recorded by, or by someone acting at the instruction of, the Chairperson. The minutes must state the number of Voting Bonds represented at the Bondholders' Meeting, the resolutions passed at the meeting, and the results of the vote on the matters to be decided at the Bondholders' Meeting. The minutes shall be signed by the Chairperson and at least one (1) other person. The minutes will be deposited with the Bond Trustee who shall make available a copy to the Bondholders and the Issuer upon request.

7.3 Voting rules

- (a) Each Bondholder (or person acting for a Bondholder under a power of attorney) may cast one (1) vote for each Voting Bond owned on the Relevant Record Date, ref. Clause 6.3 (*Bondholders' rights*). The Chairperson may, in its sole discretion, decide on accepted evidence of ownership of Voting Bonds.
- (b) Issuer's Bonds shall not carry any voting rights. The Chairperson shall determine any question concerning whether any Bonds will be considered Issuer's Bonds.
- (c) For the purposes of this Clause 7 (*Bondholders' decisions*), a Bondholder that has a Bond registered in the name of a nominee will, in accordance with Clause 6.3 (*Bondholders' rights*), be deemed to be the owner of the Bond rather than the nominee. No vote may be cast by any nominee if the Bondholder has presented relevant evidence to the Bond Trustee pursuant to Clause 6.3 (*Bondholders' rights*) stating that it is the owner of the Bonds voted for. If the Bondholder has voted directly for any of its nominee registered Bonds, the Bondholder's votes shall take precedence over votes submitted by the nominee for the same Bonds.
- (d) Any of the Issuer, the Bond Trustee and any Bondholder has the right to demand a vote by ballot. In case of parity of votes, the Chairperson will have the deciding vote.

7.4 Repeated Bondholders' Meeting

- (a) Even if the necessary quorum set out in paragraph (e) of Clause 7.1 (*Authority of the Bondholders' Meeting*) is not achieved, the Bondholders' Meeting shall be held and voting completed for the purpose of recording the voting results in the minutes of the Bondholders' Meeting. The Bond Trustee or the person who convened the initial Bondholders' Meeting may, within ten (10) Business Days of that Bondholders' Meeting, convene a repeated meeting with the same agenda as the first meeting.
- (b) The provisions and procedures regarding Bondholders' Meetings as set out in Clause 7.1 (*Authority of the Bondholders' Meeting*), Clause 7.2 (*Procedure for arranging a Bondholders' Meeting*) and Clause 7.3 (*Voting rules*) shall apply mutatis mutandis to a repeated Bondholders' Meeting, with the exception that the quorum requirements set out

in paragraph (d) of Clause 7.1 (*Authority of the Bondholders' Meeting*) shall not apply to a repeated Bondholders' Meeting. A Summons for a repeated Bondholders' Meeting shall also contain the voting results obtained in the initial Bondholders' Meeting.

- (c) A repeated Bondholders' Meeting may only be convened once for each original Bondholders' Meeting. A repeated Bondholders' Meeting may be convened pursuant to the procedures of a Written Resolution in accordance with Clause 7.5 (*Written Resolutions*), even if the initial meeting was held pursuant to the procedures of a Bondholders' Meeting in accordance with Clause 7.2 (*Procedure for arranging a Bondholders' Meeting*) and vice versa.

7.5 Written Resolutions

- (a) Subject to these Bond Terms, anything which may be resolved by the Bondholders in a Bondholders' Meeting pursuant to Clause 7.1 (*Authority of the Bondholders' Meeting*) may also be resolved by way of a Written Resolution. A Written Resolution passed with the relevant majority is as valid as if it had been passed by the Bondholders in a Bondholders' Meeting, and any reference in any Finance Document to a Bondholders' Meeting shall be construed accordingly.
- (b) The person requesting a Bondholders' Meeting may instead request that the relevant matters are to be resolved by Written Resolution only, unless the Bond Trustee decides otherwise.
- (c) The Summons for the Written Resolution shall be sent to the Bondholders registered in the CSD at the time the Summons is sent from the CSD and published at the Bond Trustee's web site, or other relevant electronic platform or via press release.

- (f) Only Bondholders of Voting Bonds registered with the CSD on the Relevant Record Date, or the beneficial owner thereof having presented relevant evidence to the Bond Trustee pursuant to Clause 6.3 (*Bondholders' rights*), will be counted in the Written Resolution.
- (g) A Written Resolution is passed when the requisite majority set out in paragraph (f) or paragraph (g) of Clause 7.1 (*Authority of Bondholders' Meeting*) has been obtained, based on a quorum of the total number of Voting Bonds, even if the Voting Period has not yet expired. A Written Resolution will also be passed if the sufficient numbers of negative votes are received prior to the expiry of the Voting Period.

- (h) The effective date of a Written Resolution passed prior to the expiry of the Voting Period is the date when the resolution is approved by the last Bondholder that results in the necessary voting majority being obtained.
- (i) If no resolution is passed prior to the expiry of the Voting Period, the number of votes shall be calculated at the close of business on the last day of the Voting Period, and a decision will be made based on the quorum and majority requirements set out in paragraphs (e) to (g) of Clause 7.1 (*Authority of Bondholders' Meeting*).
